

Operational guide — KINEVA FIT menu paths

Language: English · Fallback for all non-Italian app locales.

Version: 1.5 · **Date:** 20 September 2026

Related document: `manuale_utente.md` (§14 incorporates this guide)

This guide shows **where to tap** for each feature. Paths use the app’s English UI labels.

Part	Contents
Index	List of all sections
Reference guide	UI legend, navigation, plans, symbols
§1–§13	How-to by feature (menu paths)
§14 Cheat sheet	Quick paths “I want... → where to tap”
§15 Where to dig deeper	Links to manuals and project docs

Index

- 1. Orient yourself in the app — role, active client, settings
- 2. Create and organize routines — new, edit, groups, templates, manage
- 3. Run a workout (Runner) — start, exit, GPS, swim
- 4. Schedule and calendar
- 5. Read history and progress — History, Data, GPS map
- 6. Export routines (PDF / image / WhatsApp)
- 7. Apple Watch
- 8. Clients (Pro Plan / Studio & Gym)
- 9. Multi-trainer / gym (Studio & Gym)
- 10. Trainer area — Admin Panel
- 11. AI and photo import
- 12. Useful settings — Base, Trainer Pro, paywall

- 13. Mobility / rehab · 13bis Pilates Pack
- 14. Quick paths (cheat sheet)
- 15. Where to dig deeper

Summary in the user manual: `manuale_utente.md` §14.

Reference guide

Fixed legend for reading every path in this guide.

Main navigation (bottom bar)

Tab	Role
Home	Routines, runner, active client, New Routine FAB
Calendar	Day program, history, appointments
Data	Stats / charts (Workout · Bio)
History	Completed sessions, filters, detail, GPS map
More	Settings (Base Trainer Pro)

Menus and gestures

Symbol / gesture	Where	Meaning
☰	Home (top)	Drawer: profile/role, clients, subscription, More
⋮	Routine / group card	Context menu (edit, schedule, Watch, PDF...)
▶	Routine card	Start Runner
Tap client name	Home header / drawer	Change active client (Pro/Studio)

Symbol / gesture	Where	Meaning
Plan / role chip	Under KINEVA FIT title	Subscription plan · session role (Athlete / Trainer / Supervisor)

Plans (feature locks)

In paths, in parentheses: **Free** · **Athlete Pro** · **Pro Plan** · **Studio & Gym**.

If an item is locked → paywall (≡ / More → subscription banner, or lock on the feature).

Free: 1 routine, 1 group, 15 exercises; **no distance/GPS** (define or run), Watch, multi-client PDF.

Athlete Pro+: distance/GPS, map, Watch, and the rest of the plan's features.

How to read a path

Example: Home → New Routine → Create Manual Routine

1. **Home** tab
2. **New Routine** button
3. **Create Manual Routine** item

Short “I want to do X” paths: §14 Cheat sheet.

Related docs (architecture, QA, Store): §15.

1. Orient yourself in the app

1.1 Who is in session (role)

After login (Gym) or on open:

Home → row under the KINEVA FIT title

- **Plan** chip (e.g. STUDIO & GYM)
- **Role** chip: **SUPERVISOR** · **TRAINER** · **Name** · **ATHLETE**
- Below: **Active client** (who you are training)

Same role also in:

Home → ≡ Drawer → card at top

1.2 Change active client (Pro Plan / Studio)

Home → tap the active client name (arrow)

or

Home → ≡ Drawer → tap the client name

1.3 Settings

More (bottom tab)

or

Home → ≡ → More

Tabs: **Base** | **Trainer Pro**

2. Create and organize routines

2.1 New routine (all methods)

Home → New Routine button (bottom bar / FAB)

Item	Full path	Plan
Manual editor	New Routine → Create Manual Routine → Editor → Save	Free limited; Athlete+ full
AI Wizard	New Routine → Generate with AI (Gemini)	AI credits
Paper routine photo	New Routine → Import Routine from Photo	AI credits
Template	New Routine → Template Library → choose → import	Free: routine/exercise limits
Free workout	New Routine → Free Workout → Editor	Same as editor

Item	Full path	Plan
Mobility protocols	New Routine → Mobility Protocols	Studio & Gym
Pilates Pack	New Routine → Pilates Pack	Athlete Pro+ + purchased add-on

2.2 Edit a routine

Home → ⋮ on the routine → Edit → Editor → Save

2.3 Duplicate / archive / delete

Home → ⋮ on the routine → Duplicate

Home → ⋮ on the routine → Archive

Home → ⋮ on the routine → Delete

2.4 Groups

Home → ⋮ on the group → Rename / Duplicate Group / Archive Group / Delete All

Home → ⋮ on the group → Schedule (all routines in the group)

2.5 Save as template

Home → ⋮ routine/group → Save as Template — **not Free**

2.6 Manage mode (multi-select)

Home → bar under the header → Manage

1. Check routines or groups
2. At top: {n} Selected
3. Actions:  Send to Watch (Athlete Pro+) · Select all · Delete
4. × to exit

2.7 Transfer exercises between routines

Home → bar → Transfer → tap exercises on a routine → COPY or MOVE → choose destination routine

3. Run a workout (Runner)

3.1 Classic start

Home → ► on the routine → Runner

- Play / pause, next, exercise list
- At end: summary → save to **History**

3.2 Early exit

Runner → (back / exit menu)

- Delete and Exit
- Finish Now (save partial)
- Suspend Workout (resume later)

3.3 Rerun / reset today

Home → ... on the routine → Rerun routine

Home → ... → Restart (if suspended)

Home → ... → Reset today's run

3.4 Run / GPS distance

Paid plans only (Athlete Pro+). The Free plan cannot define or run distance / GPS exercises (editor, templates, import, runner).

1. In Editor: exercise with **distance (km)** measure — **Athlete Pro+**
2. Home → ► → during the session: **GPS ON** on the distance panel
3. At workout end: map in **History** / summary + write to **Apple Fitness / Health** (iPhone)
4. Privacy (default ON): More → Base → Save GPS route — if OFF, no coordinates in history and no route in Fitness

Apple Fitness note: workouts done on the **Watch** already go to Fitness via native HealthKit (Health and GPS consent **once** on first Watch use). **iPhone-only** runs (including free distance) are written to Health/Fitness at **session end**.

iPhone permission flow: (1) **first launch** → Health consent **write only**; (2) **first GPS use** → **location** consent; (3) at session end silent Fitness save if already authorized.

Watch permission flow: (1) **first Watch app launch** → Health read+write (HR/calories/live distance); (2) **first outdoor GPS** → When-In-Use location if not yet determined.

If you previously denied Health: iPhone Settings → Health → Data Access & Devices → KINEVA FIT → enable write.

Verify: **Fitness** app → Summary → scroll **Workouts**, or **Health** → **Browse** → **Activity** → **Workouts**.

3.5 Swim

Runner: laps / stroke / SWOLF panel (and Watch lap if available).

4. Schedule and calendar

4.1 Schedule a routine

Home → ⋮ on the routine → Schedule

Home → ⋮ → Manage Dates

Home → ⋮ → Cancel All

4.2 Calendar

Calendar (bottom tab)

- Selected day: **PROGRAM** (routines), **HISTORY**, **APPOINTMENTS** (Pro/Studio)
 - Tap scheduled routine → Home / Runner
 - + at top → New appointment — **Pro Plan / Studio**
-

5. Read history and progress

5.1 Session history

History (tab)

or Home → ☰ → History

1. Open **Filters** (period: days/weeks/months/years; session type)
2. On Pro/Studio: **Filter Athlete**
3. Tap period → drill-down
4. Tap **session card** → exercise / GPS / map detail
5. Bulk export / cloud ZIP: icons in AppBar — **Athlete Pro+**

Cloud archive:

More → Base → MY DATA AND HISTORY → Save history and charts (cloud)
→ Restore history from archive → Merge / Replace

5.2 Stats / charts

Data (Stats tab)

- **Workout** tab: volume, composition, performance, insight
- **Bio** tab: biometric measures
- Filter athlete (Pro/Studio)
- Export: ⋮ → Export progress (PDF/JSON) — **Athlete Pro+**

6. Export routines (PDF / image / WhatsApp)

Home → ⋮ on the routine → Share / Export → **Export Program**

1. Choose **format**
2. Choose **channel**: Save file · Email · WhatsApp

Format	Plan
Compact table (PDF)	Athlete Pro+
Illustrated table (PDF)	Athlete Pro+
Program manual (PDF)	Pro Plan / Studio
HD image	Pro Plan / Studio

The file is always saved locally even if sharing fails.

7. Apple Watch

Requirements: Athlete Pro+ (or trial), KINEVA FIT on iPhone and Watch, Bluetooth, watch paired.
After install from the iPhone Watch app: open KINEVA FIT on the Watch once before sending routines.

7.1 One routine

Home → ⋮ → Send to Apple Watch → **on Watch** badge

7.2 Multiple routines

Home → Manage → select →  at top

7.3 On the Watch

Open **KINEVA FIT** → tap routine → **OPEN** → **START** → **NEXT**
Pause: single tap · Resume: double tap

8. Clients (Pro Plan / Studio & Gym)

8.1 New client

Home → ☰ Drawer → New Client

Fill in name (and optionals) → **Create**

(The form stays open to create another; the active client does not change on its own.)

Or: Client registry → +

8.2 Registry

Home → ☰ → Client registry

or More → Trainer Pro → Studio tools → Client registry

8.3 Edit / duplicate / suspend / delete

Home → ☰ → ... on the client (or long-press)

- Edit Profile
- Duplicate Client
- Suspend / Reactivate
- Share with trainers (multi-trainer)
- Delete

8.4 Limits

Plan	Clients
Free / Athlete Pro	Only "Me (Default)"
Pro Plan	Max 8 (<i>legacy unlimited if grandfathered</i>)
Studio & Gym	Unlimited

9. Multi-trainer / gym (Studio & Gym)

9.1 Login on launch

Lock overlay:

1. Who is signing in? → choose **Supervisor** or **Trainer** (gear)
2. Enter PIN on the **on-screen keypad** (not the system keyboard)
3. Or 8-digit recovery code

The Home header shows the role (sec. 1.1).

9.2 Create a trainer (Supervisor only)

More → Trainer Pro → Studio tools → (PIN if required) → **Admin**
→ **Trainer management** → + / **Add trainer**

1. Trainer name
2. Trainer PIN (required for login)

3. Enable access if needed

Max **3 trainers** per device (+ 1 supervisor). Deleting a trainer does **not** free the seat immediately (30-day cooldown). Cleaning “ghost” seats is only in the producer menu (black door), not for the supervisor.

9.3 Activate / suspend a trainer

Trainer management → trainer card → Suspend / Reactivate

or bulk: Suspend or reactivate trainers

9.4 Share a client

☰ → ... client → Share with trainers → choose owner and shares → close with **X** / **CLOSE**

9.5 Supervisor PIN

More → Trainer Pro → Protect with PIN / Change PIN

0000 = no PIN (only if there are no trainers that require protection)

10. Trainer area — Admin Panel (Pro Plan+)

More → Trainer Pro → Studio tools → PIN → Admin panel

Area	Path / item	Use
Branding	Studio name / Email / Logo	PDF and export
Exercises	Database → Exercises	Custom CRUD
PDF encyclopedia	Export Manuals (PDF)	Segments or full catalog
Assign routines	Assign Master Routines	Clone from “Me” to N clients
Batch routines	Massive Card Management	Multi archive/delete
Deliveries	Deliveries & Backup	Batch PDF / JSON
Import	Import Routines (JSON)	From a colleague

Area	Path / item	Use
Batch clients	Duplicate / Delete Clients	Multi-select
CSV	Export History and Biometrics	Per client
Trainers	Trainer management	Studio + supervisor only
Mobility	Mobility Prot.	Studio
Catalog backup	Trainer Pro → Create Full Backup	Athlete+

Client routine cleanup (season):

More → Trainer Pro → Multi Routine Cleanup

11. AI and photo import

Home → New Routine → Generate with AI

Home → New Routine → Import Routine from Photo

Need connectivity and credits. Always verify the result before saving.

Credits and config (if AI is on): More → Trainer Pro → Studio tools → Admin → AI CONFIG

Buy extra credits (if Store products are active): AI booster sheet from the paywall / credits dialog.

12. Useful settings

12.1 Base tab

More → Base

Section	Typical items
GENERAL	Language, Guide audio (+ voice/volume/countdown), Vibration, Notifications, Save GPS route, Licensed devices
APPEARANCE	Dark theme, accent color, routine color style, list density, Home header details

Section	Typical items
DATA	Cloud history ZIP archive / restore (Athlete+)

12.2 Trainer Pro tab

More → Trainer Pro

Item	Use	Plan
Studio tools	Admin Panel (PIN)	Pro / Studio
Protect / Change PIN	Lock trainer area	Pro / Studio
Smart Swap (Affinity)	Replace exercise same muscle in session	Pro+
Multi Routine Cleanup	Delete obsolete multi-client routines	Pro+
My Personal Data (JSON)	Export profile + routines	Athlete+
Create Full Backup / Restore	Custom exercise catalog + mobility	Athlete+
Clear Workout History	Reset history	—

12.3 Subscription / paywall

≡ Drawer → subscription banner

or More → banner at top

or lock on a Pro feature → paywall

On the paywall: Athlete / Pro Plan / Studio plans · monthly/yearly · 7-day trial (Store) · Restore purchases · Licensed devices if seats are full · **Pilates Pack add-on card** (€9.99 one-time) if the plan is Athlete Pro+.

13. Mobility / rehab (Studio & Gym)

Home → New Routine → Mobility Protocols

(first time: Mobility notice → Accept)

Catalog management:

More → Trainer Pro → Studio tools → Mobility Prot.

Assign protocols from the client profile (Edit profile → Mobility protocols).

Note: Studio mobility protocols and the **Pilates Pack** are distinct. Mobility is included in Studio; Pilates is a paid add-on for Athlete Pro+.

13bis. Pilates Pack (Athlete Pro+)

One-time add-on (€9.99): catalog of 29 Pilates exercises (mat + machine) with notes and silhouettes. **Not** included in Athlete, Pro Plan, or Studio.

Home → New Routine → Pilates Pack (item next to Mobility Protocols)

State	What happens
Free plan	Item shows “Available from Athlete Pro onwards”
Athlete+ without pack	Opens in-app store / add-on paywall
Athlete+ with pack	Opens exercise selection filtered “Pilates only” → editor

Purchase also from the paywall (add-on card under the plans). Product ID:
com.mauroferrari.FITPlus.pilates — see REVENUECAT_APP_STORE_PRODUCTS.md §6bis.

14. Quick paths (cheat sheet)

I want to...	Path
Create a routine	Home → New Routine → Create Manual Routine
Pilates routine	Home → New Routine → Pilates Pack
Work out	Home → ► on the routine
See history	History → filters → tap session

I want to...	Path
See charts	Data → Workout / Bio
Schedule	Home → ... → Schedule or Calendar
Export PDF	Home → ... → Share / Export
Send to Watch	Home → ... → Send to Apple Watch
Create a client	☰ → New Client (Pro/Studio)
Create a trainer	More → Trainer Pro → Studio tools → Trainer management → +
Change login role	Close app / lock → choose profile → PIN
Subscription	Drawer/Settings banner → paywall
Settings	More

15. Where to dig deeper

Topic	Document
Full user manual	manuale_utente.md (§14 summarizes this guide)
Detailed Trainer area	manuale_utente.md §13
Multi-trainer (design + status)	architecture/multi_trainer.md
